

ENVIRONMENTAL POLICY

Instant Waste Management is responsible for implementing and managing waste contracts for Local/State Government, private and commercial stakeholders. We recognise and accept our responsibility to ensure all services; transport and storage activities are conducted in a manner which is environmentally responsible.

Instant Waste Management is committed to continuous improvement for environmental management issues.

Consistent with this, Management will ensure that:

- all applicable legislation, standards, guidance notes and codes of practice are complied with;
- communicate openly with the Government and the community on environmental issues;
- employees and contractors are consulted with ways to identify, assess and control environmental risks;
- management systems are developed and implemented to identify, control and monitor environmental risks; and
- all management, employees and contractors are aware of their responsibilities in relation to this policy.
