BAYSWATER WA 6053

Our Ref: HCP Reference letter

To Whom It May Concern,

We write to provide formal reference of Instant Waste Management's high level of service on the following projects. We have instructed IWM to provide consultancy services for the following clients on our behalf.

City of Gosnells – Mills Park – a community recreational centre that achieved a 6 Green Star rating under the Green Building Council of Australia's accreditation system "world best practice". Construction & demolitions waste management planning and the provision of waste reports as the preferred recycling & waste contractor of the City of Gosnells on this project.

Beach Street - Mixed Use Development – Waste Management Planning for the purpose of local government design and building approval. Feasibility study costings for the private commercial tenancy waste streams and the removal of municipal solid waste streams from the operational site.

During our interactions with Jake Hickey (IWM's State Resource Development Manager) we have always found the service provision to be professional and able to operate under the tight time frames that are common place with the design approval and building works associated with major projects in Western Australia.

I would have no hesitation in providing a verbal reference to support this formal letter if required.

Yours faithfully

Nicholas Preston

Managing Director
