

Paper & Cardboard

Collection System

Paper and Cardboard (P&C) are some of the simplest products to recycle. We help our customers turn their P&C waste into a recyclable material, thereby diverting from landfill.

- We can provide bins of various sizes from a 240-litre wheelie style bin, through to 4.5m³ front lift style bins. These bins are suitable for most businesses.
- For larger generators of paper and cardboard waste, we can also cater for larger bins such as 30m³ hook style bins.
- Once the waste paper/cardboard bin is collected, we transport it to a recycling facility, where it is screened, sorted, and baled for reprocessing into new paper and cardboard products.
- Recycling paper and cardboard is the simplest way all businesses can contribute to looking after the environment by reducing landfill disposal, virgin tree falling, air and water pollution, and greenhouse gas emissions.

We can supply a variety of bins to collect your Paper & Cardboard (P&C) waste.

Specifications

Accepted products

- Computer printouts
- Letterheads and envelopes
- Writing paper
- Computer reports
- White forms
- Magazines and newspapers
- Manila folders
- Cardboard and packaging
- Coloured paper
- Phone books
- Fax/photocopy paper
- Reports

(No laminated items are accepted).

Why Choose Us?

Instant Waste Management is a reliable and trustworthy waste partner. Our experience enables us to cater for all waste projects quickly and efficiently. We provide an extensive fleet of vehicles and a comprehensive range of bins, as well as utilising the latest collection and waste management processes. Our state-of-the-art Material Recovery Facility (MRF) helps customers reduce, reuse, and recycle materials for a total integrated waste solution.

Our Commitment

We can customise packages to meet all waste stream requirements. We target cost efficiency, environmental optimisation, and resource to provide the best available customer service; all of which leads to a longer term and mutually successful relationships.

Sustainable Waste Management

Our approach is designed to deliver key benefits to you - starting with waste assessments through to the collection, separation, and recycling of all your waste streams. Our technology, experience and operational techniques ensure the minimum amount of waste is produced, diverting it away from landfill, lowering your bottom line and creating a positive environmental impact. Waste matters to us. With our help, you'll meet all your sustainable commitments for the safe and effective management of waste. Make Instant Waste Management your preferred waste partner of choice.

Front Lift			
Capacity	1.5m3	3.0m3	4.5m3
Length	1.08m	1.53m	1.9m
Width	1.21m	1.21m	2.1m
Height	1.3m	1.59m	1.65m

Rear Lift				
Capacity	120L	240L	660L	1100L
Length	0.55m	0.73m	0.8m	1.1m
Width	0.49m	0.58m	1.2m	1.2m
Height	0.93m	1.06m	1.23m	1.33m

Collection System

Rear Lift Collection

Best suited for sites with restricted access. Multiple smaller bins and containers can be positioned and emptied into the vehicle and compacted prior to transportation.

Front Lift Collection

Best suited for sites with large amounts of recyclable waste. Large metal containers are lifted and automatically emptied into the vehicle and compacted prior to transportation.
