

# Front Lift

## Collection System

The Instant Waste Management front lift system as its name is a top loading, compact, enclosed bin system with easy-to-open lids. These bins are larger than household bins making them suitable for most commercial or industrial applications where both space utilisation and a suitable size are the important considerations. This safe waste disposal system provides for 'clean, out of sight' sustainable waste management to benefit both businesses and the environment.

- This system is suitable for lightweight to medium density waste including general office paper, cardboard, and packaging.
- Standard bin sizes are 1.5m<sup>3</sup>, 3m<sup>3</sup> and 4.5m<sup>3</sup> capacity.
- At call, daily, weekly, fortnightly or 4-week service schedules can be established to suit your requirements.
- Our bin remains on-site and are a compact solution to store waste and recyclable materials between collections.
- Our bins can also be customised to your requirements (e.g. lockable, choice between steel or plastic lids, and choice between whether castors are fitted etc.).
- Perfect for schools, hotels, shopping center, distribution outlets, as well as for commercial and industrial customers who generate large waste streams.

### Vehicle Specifications

Overall length	Up to 11m
Overall width	2.5m
Height (travel)	Up to 3.8m
Weight (vehicle only)	16.5t
Weight (payload)	11.0t
Turning circle	25.0m

### Bin Specifications

Capacity	1.5m3	3.0m3	4.5m3
Depth	1.1m	1.5m	1.8m
Width	2.1m	2.1m	2.1m
Height	1.3m (2)	1.6m (2)	1.7m

#### Notes

1. The above measurements should be treated as approximates only and have been based on the outside bin measurements of our standard bin range. There may be slight fluctuations within our range of stock.
2. The height of these bins incorporate castors that form part of the bin.

## Specifications

### Vehicle safety features

- On board reverse camera
- External mirrors
- Reversing lights and beepers
- Dual positioned hazard lights
- Rotating flashing beacons

### Bin options

- Three different sizes
- Plastic and steel lids
- Colour coding for different waste streams
- Lid lock solutions
- Castors (wheels)

### Bin accessories

- Bin liners
- Deodorising pellets

## Why Choose Us?

Instant Waste Management is a reliable and trustworthy waste partner. Our experience enables us to cater for all waste projects quickly and efficiently. We provide an extensive fleet of vehicles and a comprehensive range of bins, as well as utilising the latest collection and waste management processes. Our state-of-the-art Material Recovery Facility (MRF) helps customers reduce, reuse, and recycle materials for a total integrated waste solution.

## Our Commitment

We can customise packages to meet all waste stream requirements. We target cost efficiency, environmental optimisation, and resource to provide the best available customer service; all of which leads to a longer term and mutually successful relationships.

## Sustainable Waste Management

Our approach is designed to deliver key benefits to you - starting with waste assessments through to the collection, separation, and recycling of all your waste streams. Our technology, experience and operational techniques ensure the minimum amount of waste is produced, diverting it away from landfill, lowering your bottom line and creating a positive environmental impact. Waste matters to us. With our help, you'll meet all your sustainable commitments for the safe and effective management of waste. Make Instant Waste Management your waste partner of choice.
