

Paper & Cardboard

Collection System

Paper and Cardboard (P&C) are some of the simplest products to recycle. We help our customers turn their P&C waste into a recyclable material, thereby diverting this waste stream away from landfill.

- We typically provide bins of various sizes from a 240-litre wheelie style bin, through to 4.5m³ front lift style bins.
- For larger generators of paper and cardboard waste, we can provide larger bins up to 30m³ hook style bin.
- Once collected, we transport Paper and Cardboard (P&C) to a recycling facility, where it is screened, sorted, and baled for reprocessing into new paper and cardboard products.

Front Lift

Bin Specifications

Capacity	1.5m3	3.0m3	4.5m3
Depth	1.1m	1.5m	1.8m
Width	2.1m	2.1m	2.1m
Height	1.3m (2)	1.6m (2)	1.7m

Rear Lift

Bin Specifications

Capacity	120L	240L	660L	1100L
Depth	0.6m	0.7m	0.8m	1.1m
Width	0.5m	0.6m	1.2m	1.2m
Height	0.9m	1.1m	1.2m (2)	1.3m (2)

Notes

1. The above measurements should be treated as approximates only and have been based on the outside bin measurements of our standard bin range. There may be slight fluctuations within our range of stock.
2. The height of these bins incorporate castors that form part of the bin.

Specifications

Accepted products

- Computer printouts
- Letterheads and envelopes
- Writing paper
- Computer reports
- White forms
- Magazines and newspapers
- Manila folders
- Cardboard and packaging
- Coloured paper
- Phone books
- Fax/photocopy paper
- Reports

(Laminated items are accepted).

Collection System

Rear Lift Collection

Best suited for sites with restricted access. Multiple smaller bins and containers can be positioned and emptied into the vehicle and compacted prior to transportation.

Front Lift Collection

Best suited for sites with large amounts of recyclable waste. Large metal containers are lifted and automatically emptied into the vehicle and compacted prior to transportation.

Why Choose Us?

Instant Waste Management is a reliable and trustworthy waste partner. Our experience enables us to cater for all waste projects quickly and efficiently. We provide an extensive fleet of vehicles and a comprehensive range of bins, as well as utilising the latest collection and waste management processes. Our state-of-the-art Material Recovery Facility (MRF) helps customers reduce, reuse, and recycle materials for a total integrated waste solution.

Our Commitment

We can customise packages to meet all waste stream requirements. We target cost efficiency, environmental optimisation, and resource to provide the best available customer service; all of which leads to a longer term and mutually successful relationships.

Sustainable Waste Management

Our approach is designed to deliver key benefits to you - starting with waste assessments through to the collection, separation, and recycling of all your waste streams. Our technology, experience and operational techniques ensure the minimum amount of waste is produced, diverting it away from landfill, lowering your bottom line and creating a positive environmental impact. Waste matters to us. With our help, you'll meet all your sustainable commitments for the safe and effective management of waste. Make Instant Waste Management your preferred waste partner of choice.
