

Rear Lift Collection System

The Instant Waste Management rear lift collection system is perfect for sites with restricted access. As the smallest vehicle mounted compactor in our fleet, rear lift trucks are able to access areas that larger trucks cannot, such as to inner city laneways, small sites with fenced off areas, sites with height restrictions etc.

- Ideal for small to medium commercial and industrial waste streams.
- Our bins range in capacities from 240L to 1,100L.
- Bins have lids and wheels as standard, making them easy to manoeuvre into place and suitable for use indoors or outdoors.
- This system is ideal for sites where access or space is restricted, or multiple collection points are required.

Specifications

Vehicle safety features

- On board reverse camera
- Reversing lights and beepers
- Dual positioned hazard lights
- Rotating flashing beacons

Bin options

- Three bin size options
- Hard plastic allowing ease of movement
- Wheel locking device
- Colour coded for different waste streams
- Padlocks and chains

Bin accessories

- Liners
- Deodorising pellets

Why Choose Us?

Instant Waste Management is a reliable and trustworthy waste partner. Our experience enables us to cater for all waste projects quickly and efficiently. We provide an extensive fleet of vehicles and a comprehensive range of bins, as well as utilising the latest collection and waste management processes. Our state-of-the-art Material Recovery Facility (MRF) helps customers reduce, reuse, and recycle materials for a total integrated waste solution.

Our Commitment

We can customise packages to meet all waste stream requirements. We target cost efficiency, environmental optimisation, and resource to provide the best available customer service; all of which leads to a longer term and mutually successful relationships.

Sustainable Waste Management

Our approach is designed to deliver key benefits to you - starting with waste assessments through to the collection, separation, and recycling of all your waste streams. Our technology, experience and operational techniques ensure the minimum amount of waste is produced, diverting it away from landfill, lowering your bottom line and creating a positive environmental impact. Waste matters to us. With our help, you'll meet all your sustainable commitments for the safe and effective management of waste. Make Instant Waste Management your waste partner of choice.
