

Skip Bins

Collection System

Our skip bins are the most versatile and convenient waste disposal system available for inorganic waste material such as construction and demolition waste. Skip bins are used by a variety of industries including construction and manufacturing. The bins are suitable to contain a mixture of waste streams including sand, brick, metal, wood, and packaging.

With a large fleet, we offer skip bin services across the entire Perth metropolitan area, from Yanchep through to Mandurah.

- Skip bin sizes include 2m³, 4m³, 7m³, and 10m³.
- Suitable for commercial, industrial, residential, green, and general waste.
- Ideal for sites with limited access issues preventing the use of other bin receptacles.
- Waste reports can be provided to ensure your waste targets are met and environmental accreditations are achieved.
- Our Material Recovery Facility (MRF) processes waste collected to extract materials that can be repurposed or recycled.

Vehicle Specifications	2-4 m3 Bins	7-10 m3 Bins
Overall length	Up to 8m	9.2m
Overall width	2.4m	2.5m
Height (travel)	Up to 2.8m	Up to 3.8m
Height (in operation)	Up to 3.4m	Up to 5m
Weight (vehicle only)	11t	26t
Weight (payload)	15t	36t
Turning circle	15.4m	18.5m

Bin Specifications				
Capacity	2m3	4m3	7m3	10m3
Depth	2.3m	3.3m	3.7m	4.1m
Width	1.3m	1.3m	1.7m	2.0m
Height	0.9m	1.3m	1.3m	1.6m

Notes

1. The above measurements should be treated as approximates only and have been based on the outside bin measurements of our standard bin range. There may be slight fluctuations within our range of stock.
2. The height of these bins incorporate castors that form part of the bin.

Why Choose Us?

Instant Waste Management is a reliable and trustworthy waste partner. Our experience enables us to cater for all waste projects quickly and efficiently. We provide an extensive fleet of vehicles and a comprehensive range of bins, as well as utilising the latest collection and waste management processes. Our state-of-the-art Material Recovery Facility (MRF) helps customers reduce, reuse, and recycle materials for a total integrated waste solution.

Our Commitment

We can customise packages to meet all waste stream requirements. We target cost efficiency, environmental optimisation, and resource to provide the best available customer service; all of which leads to a longer term and mutually successful relationships.

Sustainable Waste Management

Our approach is designed to deliver key benefits to you - starting with waste assessments through to the collection, separation, and recycling of all your waste streams. Our technology, experience and operational techniques ensure the minimum amount of waste is produced, diverting it away from landfill, lowering your bottom line and creating a positive environmental impact. Waste matters to us. With our help, you'll meet all your sustainable commitments for the safe and effective management of waste. Make Instant Waste Management your waste partner of choice.
