

Material Recovery Facility (MRF)

Tour Information

Our visitors walkway has a viewing platform where they can see the day-to-day operations of our MRF.

We have interactive videos and detailed signage showcasing the recovery process.

We are dedicated to raising waste awareness within the community to reduce waste going to landfill.

Our Material Recycling Facility (MRF) plays an important role in the diversion of Construction and Demolition (C&D) waste away from landfill, and helps to maximise the value of recyclable material recovered.

The Instant Waste Team can arrange a viewing of our MRF, with over half a kilometre of linked conveyors and plant line. We process over 200, 000 tonnes of C&D waste per annum to help improve Western Australia's environmental credentials. This diversion process is key to improving the State's waste recovery performance and will contribute to waste reduction targets over the next decade.

Detailed viewing information

- Cost; No charge.
- Attendees; By approval on application.
- Tour duration; Approximately 45 minutes.
- Children; Not allowed.
- Ramp access; Narrow access.

Why Choose Us?

Instant Waste Management is a reliable and trustworthy waste partner. Our experience enables us to cater for all waste projects quickly and efficiently. We provide an extensive fleet of vehicles and a comprehensive range of bins, as well as utilising the latest collection and waste management processes. Our state-of-the-art Material Recovery Facility (MRF) helps customers reduce, reuse, and recycle materials for a total integrated waste solution.

Our Commitment

We can customise packages to meet all waste stream requirements. We target cost efficiency, environmental optimisation, and resource to provide the best available customer service; all of which leads to a longer term and mutually successful relationships.

Sustainable Waste Management

Our approach is designed to deliver key benefits to you - starting with waste assessments through to the collection, separation, and recycling of all your waste streams. Our technology, experience and operational techniques ensure the minimum amount of waste is produced, diverting it away from landfill, lowering your bottom line and creating a positive environmental impact. Waste matters to us. With our help, you'll meet all your sustainable commitments for the safe and effective management of waste. Make Instant Waste Management your preferred waste partner of choice.
